UPDATES: Weekly

MINIMUM ORDER: 10,000

DATA CARD DESCRIPTION:

Goldleaf, the leading compiler of new connect data, is now offering companies the ability to reach New Mover VOIP subscribers. These subscribers have recently moved and have set up a VOIP connection within their home. This file is very successful for companies within the Telecom, Service, Cable, and Electronics Industry.

COMPANY DESCRIPTION:

Goldleaf Data delivers power to your company.

Power to acquire new business by reaching new connects faster – with the most affordable business and consumer data in the market. That is the Goldleaf Data difference.

The truth is, Goldleaf Data is unlike any other new mover data company you may have tried before. We are a data originator, not a data reseller, which means we get our data – both consumer and business new connect data – **directly** from the telecommunications providers (Telcos). This makes our data fresher and more accurate. The difference Goldleaf Data makes is unmistakable.

Fresher Data. Faster Data. Better Data.
